Owner Responsibility Form

Owner Name:	Date:
Structure Address:	

Yamhill Fire Protection District is considering the structure(s) located at the address listed above for the purpose of live fire training. In order for YFPD to properly burn the structure(s), there are responsibilities that are required of you, the home owner, to fulfill. Non-compliance with the listed responsibilities will result in a breach of your commitment to us the fire department and will no longer hold Yamhill Fire Protection District responsible for conducting live fire training of the structure(s).

In most cases, having a structure burned by the fire department saves you, the home owner, time and money. For us, the fire department, the sole purpose for burning a structure is valuable live fire training that we can-not get through any other means. The priority and nature of the few things that we ask of you, as the home owner, to complete is strictly for the safety of our firefighters.

Below is a list of the following responsibilities that YFPD requires of you, the home owner:

 - if asbestos is detected than we require complete removal.
3. Demolition permit must be obtained.
4. All utilities must be disconnected
