3. The paperwork for the Garner Complex, Taylor Creek and Sugar Pine conflagration fires has been filed. Brush 4 generated about \$30,000 to the District. These funds will go to purchase, Turnouts, Helmets, Portable Radios and Extrication Equipment.
4. Flying M Sub-Station – **The Rock has all been finish and construction will start Sunday October 7, 2018.**
5. The Seismic Retrofit is moving along. The siding metal is here, and they are starting to install. Also finishing up all the little odds and ends. – **They have been having issues with Taylor who is providing the siding metal. The first metal for the front of the building was cut 6" to short. This was a mess-up on Taylor's part. They sent new metal and they found when they started putting it up that there is a 1/4" inch in wide between the Top and bottom of each sheet. Taylor is now re-making the front metal for the 3rd time. This is all at Taylor's expense.**
6. The New Command Vehicle is here. The Canopy and Tank has been installed, the Lights and Radios will be done around the middle to end of October.
7. The Volunteers continue to work on Training from EMS, Wildland, Instructor, and Firefighter. We have 3 volunteers that have started the EMT class.
8. Do to issues with the Water system at the school, I have been working with the District's Legal Counsel. See attached response (Fire Board Information Only!) to the School and City from Carrie. (**Will be in your Book on Monday – still work in progress**)
